Description

The perfect starter home for any family.

The Nexus series from Oak Creek is an economic line of homes with the quality you have come to expect. With 33% more lumber than the HUD code requires, The Nexus Pegasus 9340 is heavier than the competition and built strong to last! The Nexus Pegasus 9340 has an open floor concept, lots of cabinets, and even a utility room. The secondary bedrooms are on the opposite end of the house – which creates privacy.

**All homes depicted on this website are only representations and actual home may vary. Homes shown may have optional features or obsolete materials represented. Due to Oak Creek Homes continuous product improvement process, there may be differences in specifications, materials, features, floorplans, dimensions, and other factors. Please confirm with your Oak Creek Homes retailer the availability of anything represented here. [Learn MORE.](#)*
